

Internship Program Management System

Registration and Form Submission:

register for the internship program and fill out the internship form.

Upon completion, students submit all required documents.

Document Verification:

The team leader verifies the submitted documents.

Task Assignment:

Once documents are verified, the team leader assigns the first task.

The initial task involves CRUD operations in any framework.

Joining Letter:

Upon successful completion of the task, students receive a joining letter.

Project Allocation:

Students are assigned three projects for the internship duration.

Daily and weekly tasks are uploaded to the website, along with task completion percentages.

Task Submission and Review:

Students submit tasks which are then reviewed by the team leader.

If errors are found, corrections are communicated to the students.

Certification:

Upon completion of all three tasks, students receive a certification of internship completion.

Placement Registration:

Students register for placements by uploading resumes and necessary documents.

Placement Call and Interview:

Placement calls are issued based on company requirements.

Interviews are scheduled through the website.

Post-interview status (selected/rejected) and feedback from HR are provided.

Training Arrangement:

Training or boot camps are arranged based on interview feedback and student needs.

Feedback:

Students provide feedback about the company.

Placement Announcement:

Successful placements are showcased on the website, displaying student name, company, and role.
